5. Enter Customer Basic Information
6. Add Primary Contact Information
7. Optional - Add Additional Contact (Advanced)
8. Save the Customer Record
9. View Customer Details

ALS50 CSM Portal

Customer Service Management System

Step 1: Logging Into ALS50

Open your web browser and navigate to the ALS50 Portal URL (<http://localhost:5173>). You will see the login page displaying a complete list of demo identities available for testing. The system provides multiple pre-configured test users representing different roles and departments. Select the 'Administrator' option (Amitabh Sharma, amitabh.sharma@aerofix.in, ALS-EMP-001). Click 'Continue as Amitabh Sharma' to proceed with authentication and access the ALS50 system.

Step 2: Welcome to the Dashboard

After successful login as Administrator, you will see the ALS50 Dashboard - your main home screen. The dashboard displays key metrics and performance indicators including Total Incidents (96), Cases (78), Critical issues (20), and Resolved incidents (0). You can see various dashboard panels for Incidents, Labels, and Open items with colored metrics. The top navigation bar shows the 'All customers' dropdown, notifications, and your profile (AS). This dashboard provides an overview of system activity and quick access to various modules.

Step 3: Navigate to Customers Module

From the dashboard or sidebar, click on the 'Customers' option in the left navigation menu. This takes you to the Customers management page showing a comprehensive list of all existing customers in the system. The page displays: a search box to find specific customers, an 'Extract data' button for data export, and a blue 'New customer' button to create new records. The customer list shows the total count (currently 7 customers) and displays a table with columns for Customer Name, Customer Number, Primary Address, Primary Contact, Phone, and Email.

Step 4: Click New Customer Button

Click the blue 'New Customer' button to open the customer creation form. The form displays with: a page title 'New customer' and description 'Create a new customer and configure contacts'. The form is organized into three main sections: Customer Details, Primary Contact, and Additional Contacts. Save and Cancel buttons are available at the top and bottom of the form. The Customer Details section has three text fields: Customer name (placeholder: 'e.g. Indian Air Force'), Customer number (placeholder: 'e.g. TASL-CUST-001'), and Primary address (placeholder: 'e.g. Headquarters location'). The form is ready for data entry.

Customer Service Management System

Step 5: Enter Customer Basic Information

Fill in the Customer Details section with the following information: * Customer Name: Enter the official organization name. Example: 'Department of Aerospace' * Customer Number: Provide a unique identifier in TASL-CUST-XXX format. Example: 'TASL-CUST-009' * Primary Address: Enter the main office headquarters location. Example: 'HAL Campus, Bangalore 560037' These three fields form the core customer identification information. The form shows all three fields properly filled with the example data, ready for the next section.

The screenshot displays the ALS50 CSM Portal interface. At the top, there's a header bar with a menu icon, a dropdown menu set to 'All customers', and a search bar. Below the header, the main content area is divided into two sections. The left section, titled 'Customers', contains an 'Extract data' button and a 'New customer' button. Below this, there's a search bar with the placeholder text 'Search customers...' and a result count of '10 customers'. The right section is a large, empty light blue box, likely intended for displaying customer details or a list of customers.

Customer Service Management System

Step 6: Add Primary Contact Information

Scroll down to the 'Primary Contact' section and enter the main contact person's details: * Contact Name: Full name of the primary contact. Example: 'Smt. Deepa Sharma' * Designation: Job title or role. Example: 'Director General' * Contact Email: Official email address. Example: 'deepa.sharma@hal.co.in' * Contact Phone: Phone number with country code. Example: '+91 9021001234' * Rank: Official rank or position level. Example: 'Senior Official' * Site: Primary site or office location. Example: 'Bangalore' The primary contact serves as the main point of communication with the customer and is required for every customer record.

Indian Air Force	TASL-CUST-
Central Research Institute	TASL-CUST-
Indian Army	TASL-CUST-
Indian Navy	TASL-CUST-
Indian Army Special Forces	TASL-CUST-
Border Security Force	TASL-CUST-
Customs Authority India	TASL-CUST-

Step 7: Optional - Add Additional Contact (Advanced)

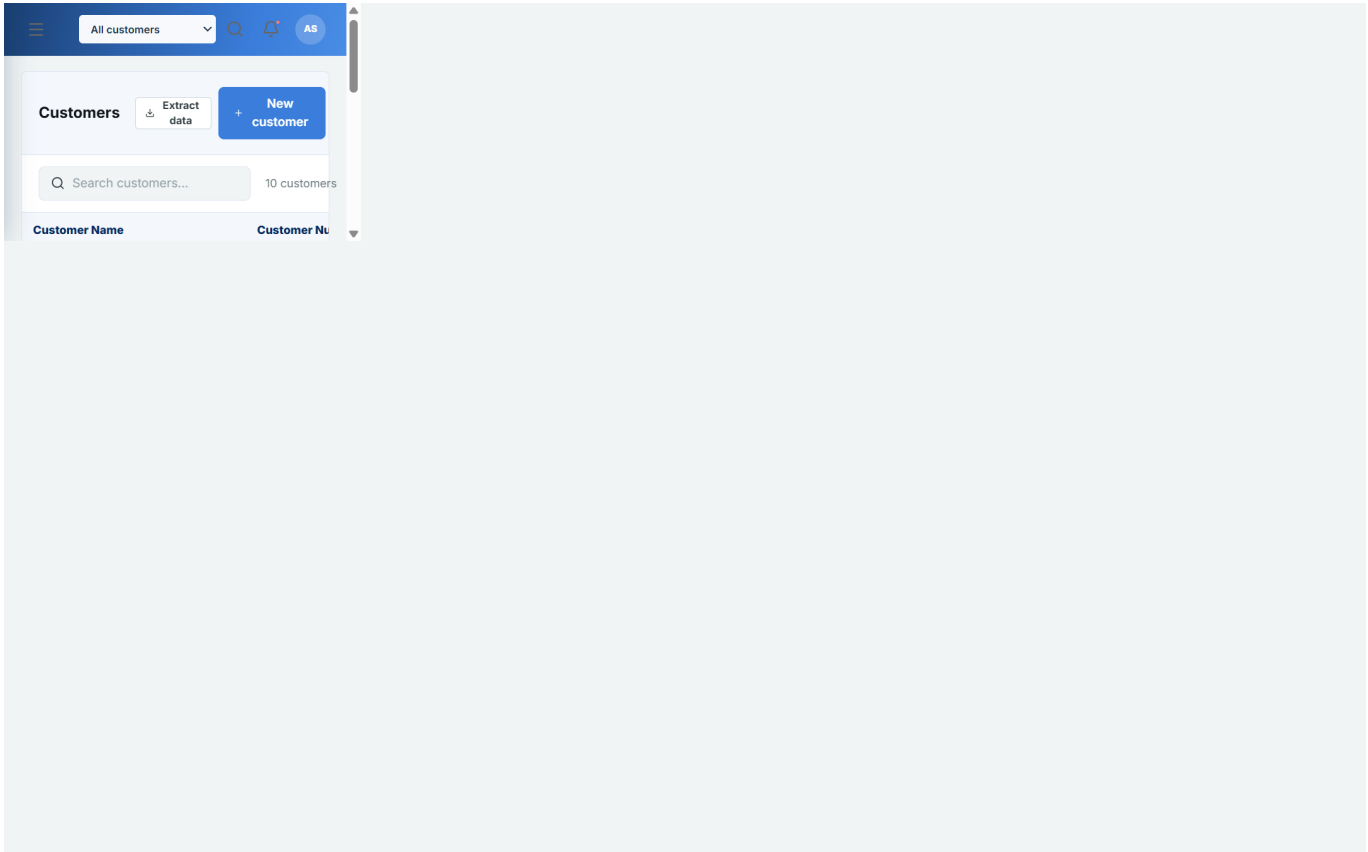

The form also provides an 'Additional Contacts' section for adding secondary contact persons. This section includes fields for: Rank, Contact Name, Designation, Phone Number, Email, Site Name, and Site Address. You can fill in an additional contact person's information if needed. Example values: Rank: 'Wing Commander', Name: 'Wg Cdr Rajesh Rao', Designation: 'Operations Head', Phone: '+91 9022001234', Email: 'rajesh.rao@hal.co.in', Site: 'Operations Center', Address: 'HAL Operations, Bangalore'. After filling, click 'Add Contact' button to add this contact to the system. Additional contacts are optional and can be added later.

Customer Service Management System

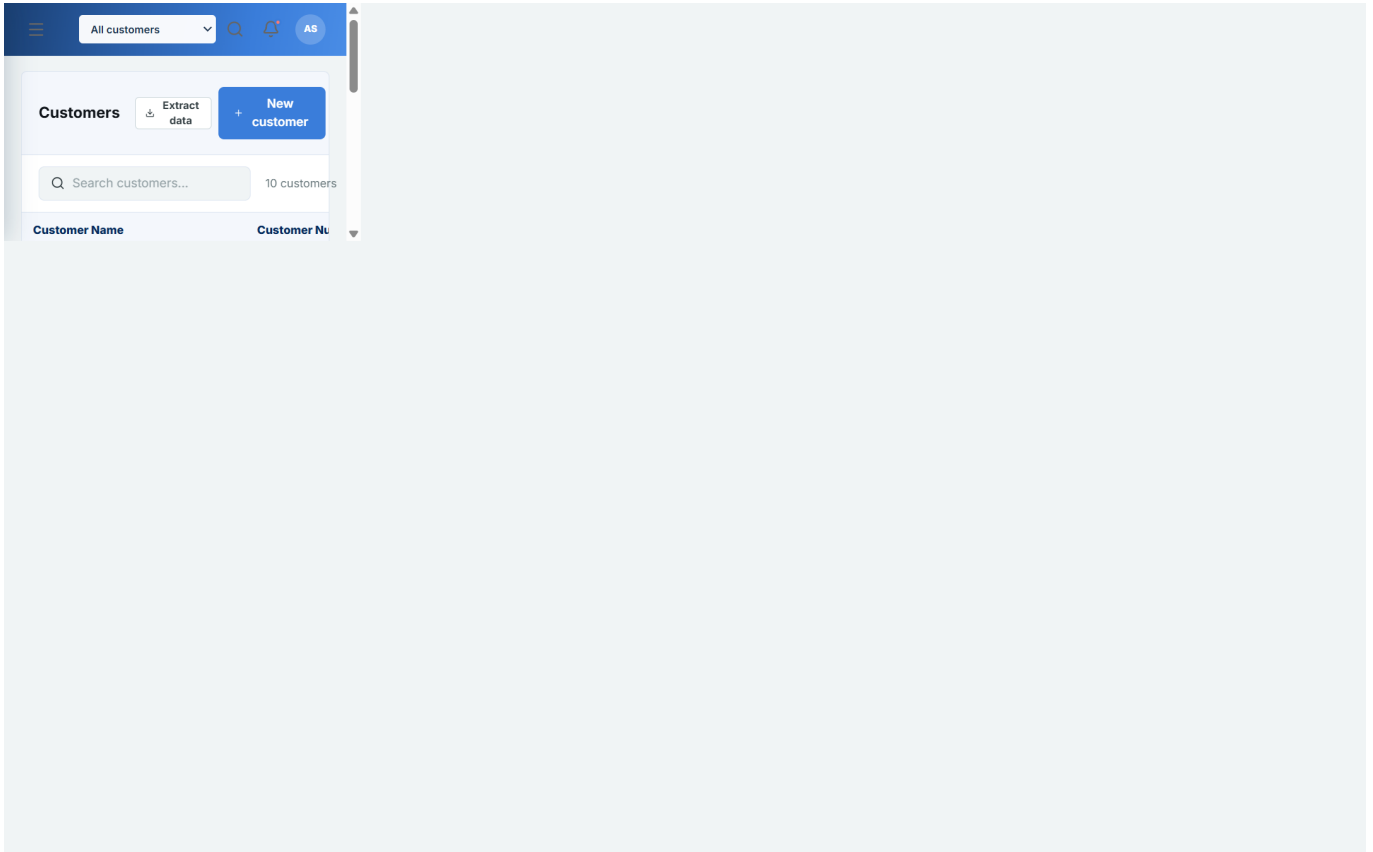

Step 8: Save the Customer Record

After filling in all required customer and primary contact information, click the blue 'Save' button (available at both top and bottom of the form). The system validates all entries and saves the new customer record. Once saved successfully, the form closes and you are automatically returned to the Customers list view. The system displays the updated customer list showing all customers including the newly created record. A success message confirms the customer has been created. The total customer count increases by 1.

Step 9: View Customer Details

To view complete information for any customer, click the 'View' button on that customer's row in the list. The customer detail page displays all stored information in an organized format. For 'Department of Aerospace' (TASL-CUST-009), you can see: Customer Details section with Name, Number, and Address; Primary Contact section with Name (Wg Cdr Rajesh Rao), Designation (Director General), Email (deepa.sharma@hal.co.in), Phone (+91 9021001234), Rank (Senior Official), and Site (Bangalore); and Additional Contacts section. The detail view also provides 'Close' and 'Edit' buttons for managing the customer record.

Quick Reference Guide

Key Fields for Customer Creation:

- Customer Name: Official organization name
- Customer Number: Unique identifier (TASL-CUST-XXX format)
- Primary Address: Main office headquarters location

Primary Contact Information:

- Name: Full name of main contact person
- Designation: Job title or role
- Email: Official email address
- Phone: Contact number with country code
- Rank: Official rank or position
- Site: Primary location or office

Helpful Tips:

- * Use the search function to quickly find existing customers
- * Primary contact information can be updated by editing the customer record
- * Additional contacts can be added to maintain a complete contact database
- * Always verify customer information before saving to ensure accuracy
